

DEMONSTRATION STAND DESCRIPTION

1. Exhibitor	Pepperl+Fuchs
2. Name of demonstration stand	The idea of Industry 4.0 in a nutshell
3. Technology 4.0	Sensors serving Industry 4.0
4. Overview photo	
5. Short description	A model of a miniature production and transport line will demonstrate how sensors being the foundation of the Industry 4.0 idea provide information on the whole process. Participants will be able to intervene in the operation of some sensors with their mobile devices, verifying first-hand the benefits of their implementation, such as remote change of parameters.
